

## Introduction

In spite of the multiple economic challenges confronting Nigeria, businesses must continue to actively engage consumers while attracting, incentivising and retaining key staff. In this regard, employee benefits have emerged as an essential tool.

We believe that knowing your financial future and plans are sorted means that you can really enjoy your life. We also believe that to truly achieve this, you need a great relationship with a quality pension service provider you know and you can trust.

Radix Pension Managers is an innovative and dedicated partner offering competitive returns that take care of the future so you can live life today. As a leading pension provider, we understand the need for a comprehensive, efficient and effective package for both individual and corporate clients.

We realise that the choice of a Pension Fund Administrator (PFA) will go a long way to determining your financial independence and quality of life post retirement. These needs make it increasingly imperative for every employer to guide its employees towards a PFA willing to put the customer first and assist in achieving set goals at retirement.

At Radix Pension Managers, we take the burden of the future off your shoulders so you can get on with living life. We put you first and remain excited to partner with you on this financial planning journey.

## What we offer and why we're different

### Key Benefits

Radix Pension Managers is constantly looking to offer its customers with bespoke financial solutions that provide flexibility and complete transparency.

- Retirement Savings Account (RSA): This is for companies with a minimum staff strength of 15. Contributed funds are invested and Radix Pension Managers promises competitive returns to customers.
- Legacy Fund: For our corporate clients, this package allows you to save staff gratuity funds with us to get competitive returns.
- Retiree Funds: Just as the name implies, these funds are deposited with us and we administer to retirees periodically.

### Other Benefits:

- SMS alerts for inquiries such as registration and contribution.
- Help desk which answers all pension related queries are available to the company and/or to individual members as required.
- Serve as the first point of call for any pension related question, be this from senior employees or individual members.
- Prompt delivery of Pins and Certificates
- Regular delivery of statement of accounts
- 24 hours online services

## The Evidence

Our decisions are based on fundamental research. We invest in quality securities; trading at attractive valuations with an important focus on risk management. This is accomplished by balancing the risk and return objectives of the portfolio and performing fundamental research on the market and its underlying securities. These decisions are implemented with close adherence to the guidelines laid down by PenCom. Ultimately, we aim to be the best performing pension fund administrator delivering superior return on investments.

## Who are we?

Radix Pension Managers, (formerly IGI Pension Fund Managers Ltd) was incorporated in 2008, as a subsidiary of Industrial and General Insurance (IGI) Plc, a leading insurance company in Nigeria. In February 2017, Radix Capital Partners Limited, a licensed boutique investment banking firm, acquired majority share interest in the company. IGI was not a force to reckon with in the pension funds management space. Radix is however set to create a disruption within the market with a reputation for excellent customer service and superior return on pension assets and investments.

## The Radix Difference

**Our brand story** is an ever-evolving one but in the timeline of our tale, some themes always persist: Fierce commitment to our **brand values** which encompass a progressive commitment to youthfulness and reliability.

A **youthful** pension manager that delivers unprecedented value-service differentiation & higher returns.

A **personality** that comprises of persistence, innovativeness, leadership and a keen focus on empowering the next generation to make decisions about their future. We focus on putting you and the security of your future first.

A promise of **commitment** to making sure your future is secure, so you can live life without worry today.

Superior **expertise** offered by our parent company's years of professional dealings in Asset Management and Financial & Investment Promotion Advisory services.

## Our Values

### Progressive:

The centrepiece of our business is in the furtherance of humanity and the lives that interact with us.

### Commitment to Youth:

We recognize the vibrancy and vulnerability that comes with being young and are wholly dedicated to nurturing and growing with patrons from their formative years till long after.

### Professionalism:

Nothing distracts us from our objective passion for the job. We adhere to the global standards of practice while standing by the local nuances that exists in each country we operate in.

### Reliable:

Trust is essential to our continued existence; trust from our customers, the public and our stakeholders, to be true to our values and objectives.

### Innovation:

Being ahead of our game is what we strive for daily as an innovative pension brand.
